EDUCATION

B.Tech in Computer Science and Engineering

Expected 2026

Graphic Era Hill University, Bhimtal

CGPA: 8.45/10

Relevant Coursework: Object-Oriented Programming, Communication Models and Protocols, Database Management Systems, Theory of Computation, Operating Systems, Computer Networks.

SKILLS

Programming Languages JavaScript, HTML, CSS, C, C++.

Libraries/Frameworks ReactJS, Redux, Redux Toolkit, Bootstrap, Tailwind, Node.js, Express.js, Next.js.

Tools Node, NPM, Vite, Webpack, Git, GitHub, MongoDB.

Technical Skills Full-stack web development, Data structures and algorithms.

PROJECTS

E-Commerce Platform (MERN Stack)

2025

- Built a full-stack e-commerce system with 20+ product listings, real-time cart updates, and secure checkout using MongoDB, Express.js, React.js, and Node.js.
- Designed a responsive UI with 95% Lighthouse performance score, improving user engagement across mobile and desktop platforms.
- Added admin functionality with role-based access and automated order tracking, reducing manual effort by 40%.
- Optimized backend queries and image loading, reducing page load time by 35%.

AI Course Generator (Next.js, PostgreSQL)

2024

- Created a platform generating 10,000+ AI-powered course modules monthly using Gemini API, helping users reduce manual effort by 70%.
- Built backend with Express.js, PostgreSQL, and Drizzle ORM, enabling real-time course creation and database updates within 150ms.
- Integrated Cloudinary for media optimization, compressing images/videos by up to 60% without loss in quality.
- Increased user retention by 35% via smooth authentication and intuitive course management interface.

ACHIEVEMENTS

- Solved over 350 Data Structures and Algorithms (DSA) problems on LeetCode, showcasing ability to evaluate complex problems and identify effective solutions.
- Secured 2nd place in a prestigious codeathon organized by our college with over 200 participants.
- Achieved 3-star rating on CodeChef. [Link](#)
- Achieved a rating of 1700 on LeetCode, ranking in the top 10.04% of coders globally.

CERTIFICATIONS

- **Full Stack Web Development Certification** - Udemy 2024
Completed a certification program covering front-end and back-end technologies such as HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB.
- **NPTEL Certification in Programming in Java** - IIT Kharagpur 2023
Gained a strong foundation in Java programming, covering object-oriented principles, multithreading, and exception handling.
